

## **Data Collection**

### **TEAM REGISTRATION**

*Data collected for team registration includes venue name, player names, captain contact email and a contact phone number. This is kept for the duration of each season and destroyed once the following season starts.*

### **WEBSITE**

*Data collected and/or used for the website includes the email address from any results that are sent in and the venues contact number which is displayed on the corresponding divisions webpage. The contact number is automatically deleted each season as the new seasons details are uploaded. Email addresses are automatically stored within the contact section of the email program used if they are replied to, no other information is stored. If you would like any particular email address removed from this address book just email a request to do so.*
